

The First Comprehensive System for EB Education

One Connected Platform for Instruction, Insight, Support, and Accountability

Connect instruction, insight, and accountability across your district and put every EB on an accelerated path to reclassification

From Identification to Reclassification – One Complete System

Instructional Pathways, Aggregated Data, and Full Program Oversight

INSTRUCTION & SUPPORT

PERSONALIZED INSTRUCTION THAT ACCELERATES GROWTH

Every student follows a Personalized Learning Plan (PLP) across all four language domains — built from BOY and MOY assessment data and aligned to their current proficiency level. PLP content targets the most critical skills first, ensuring every lesson moves every learner forward.

CONTINUOUS INSIGHT INTO STUDENT PROGRESS

Regular assessments generate updated PLPs, keeping instruction precisely targeted throughout the school year. Scores track longitudinally, allowing teachers and administrators to see growth at a glance, from a single student to an entire district.

ENGAGING FAMILIES AS PARTNERS IN LANGUAGE DEVELOPMENT

Families are full partners in the EB journey. Home language surveys, progress reports, and access to instruction in 30+ languages keep every caregiver informed, engaged, and empowered to support their student's path to proficiency.

DATA & REPORTING

AUDIT-READY PROGRAM OVERSIGHT

All reports are produced in one state-aligned platform, so leadership teams can focus on student success. Summit 360™ timestamps, stores, and facilitates the signature process for every required document, ensuring compliance is never in question.

- HLS Data & EB Identification
- Title III & ESSA Compliance Dashboards
- TELPAS & Reclassification Monitoring Workflows
- Digital LPAC Documentation
- Automated Reporting Tools

PREDICTING THE PATH TO RECLASSIFICATION

The platform connects SIS, assessment data, LMS, and TELPAS results into one unified system. From identification to reclassification, every data point is connected, every decision is informed, and every student's path to proficiency is clearly mapped.
